

Welcome to Angel Films!

If you are not acquainted with our workflow, please don't be afraid to ask for help. For those of you who are here when we are closed we provide these instructions on how to operate our warehouse:

This is the area for returns and outgoing equipment. Every bit of space here can be used, don't be shy.

Picking up?

Your equipment is **marked with the company and production** name. Under this you can find a yellow delivery note. Carefully **compare the equipment with the list before signing**. Leave the signed notes on the table which is marked on the map in blue, where the return forms also are found.

If there is anything out of the ordinary with your equipment it is marked on the front page.

Returning?

Place all your returns in the **same area** whilst leaving a free passage through the warehouse. Space can be limited but we trust you to do your best. After the equipment is placed in the warehouse, please **fill out a returns form**. **Vehicle keys** should be placed in the **vehicle key return** box located to the right when you enter the Warehouse.

Please, feel free to leave feedback, it is greatly appreciated! Returns forms can be found on the table marked on the map in blue.

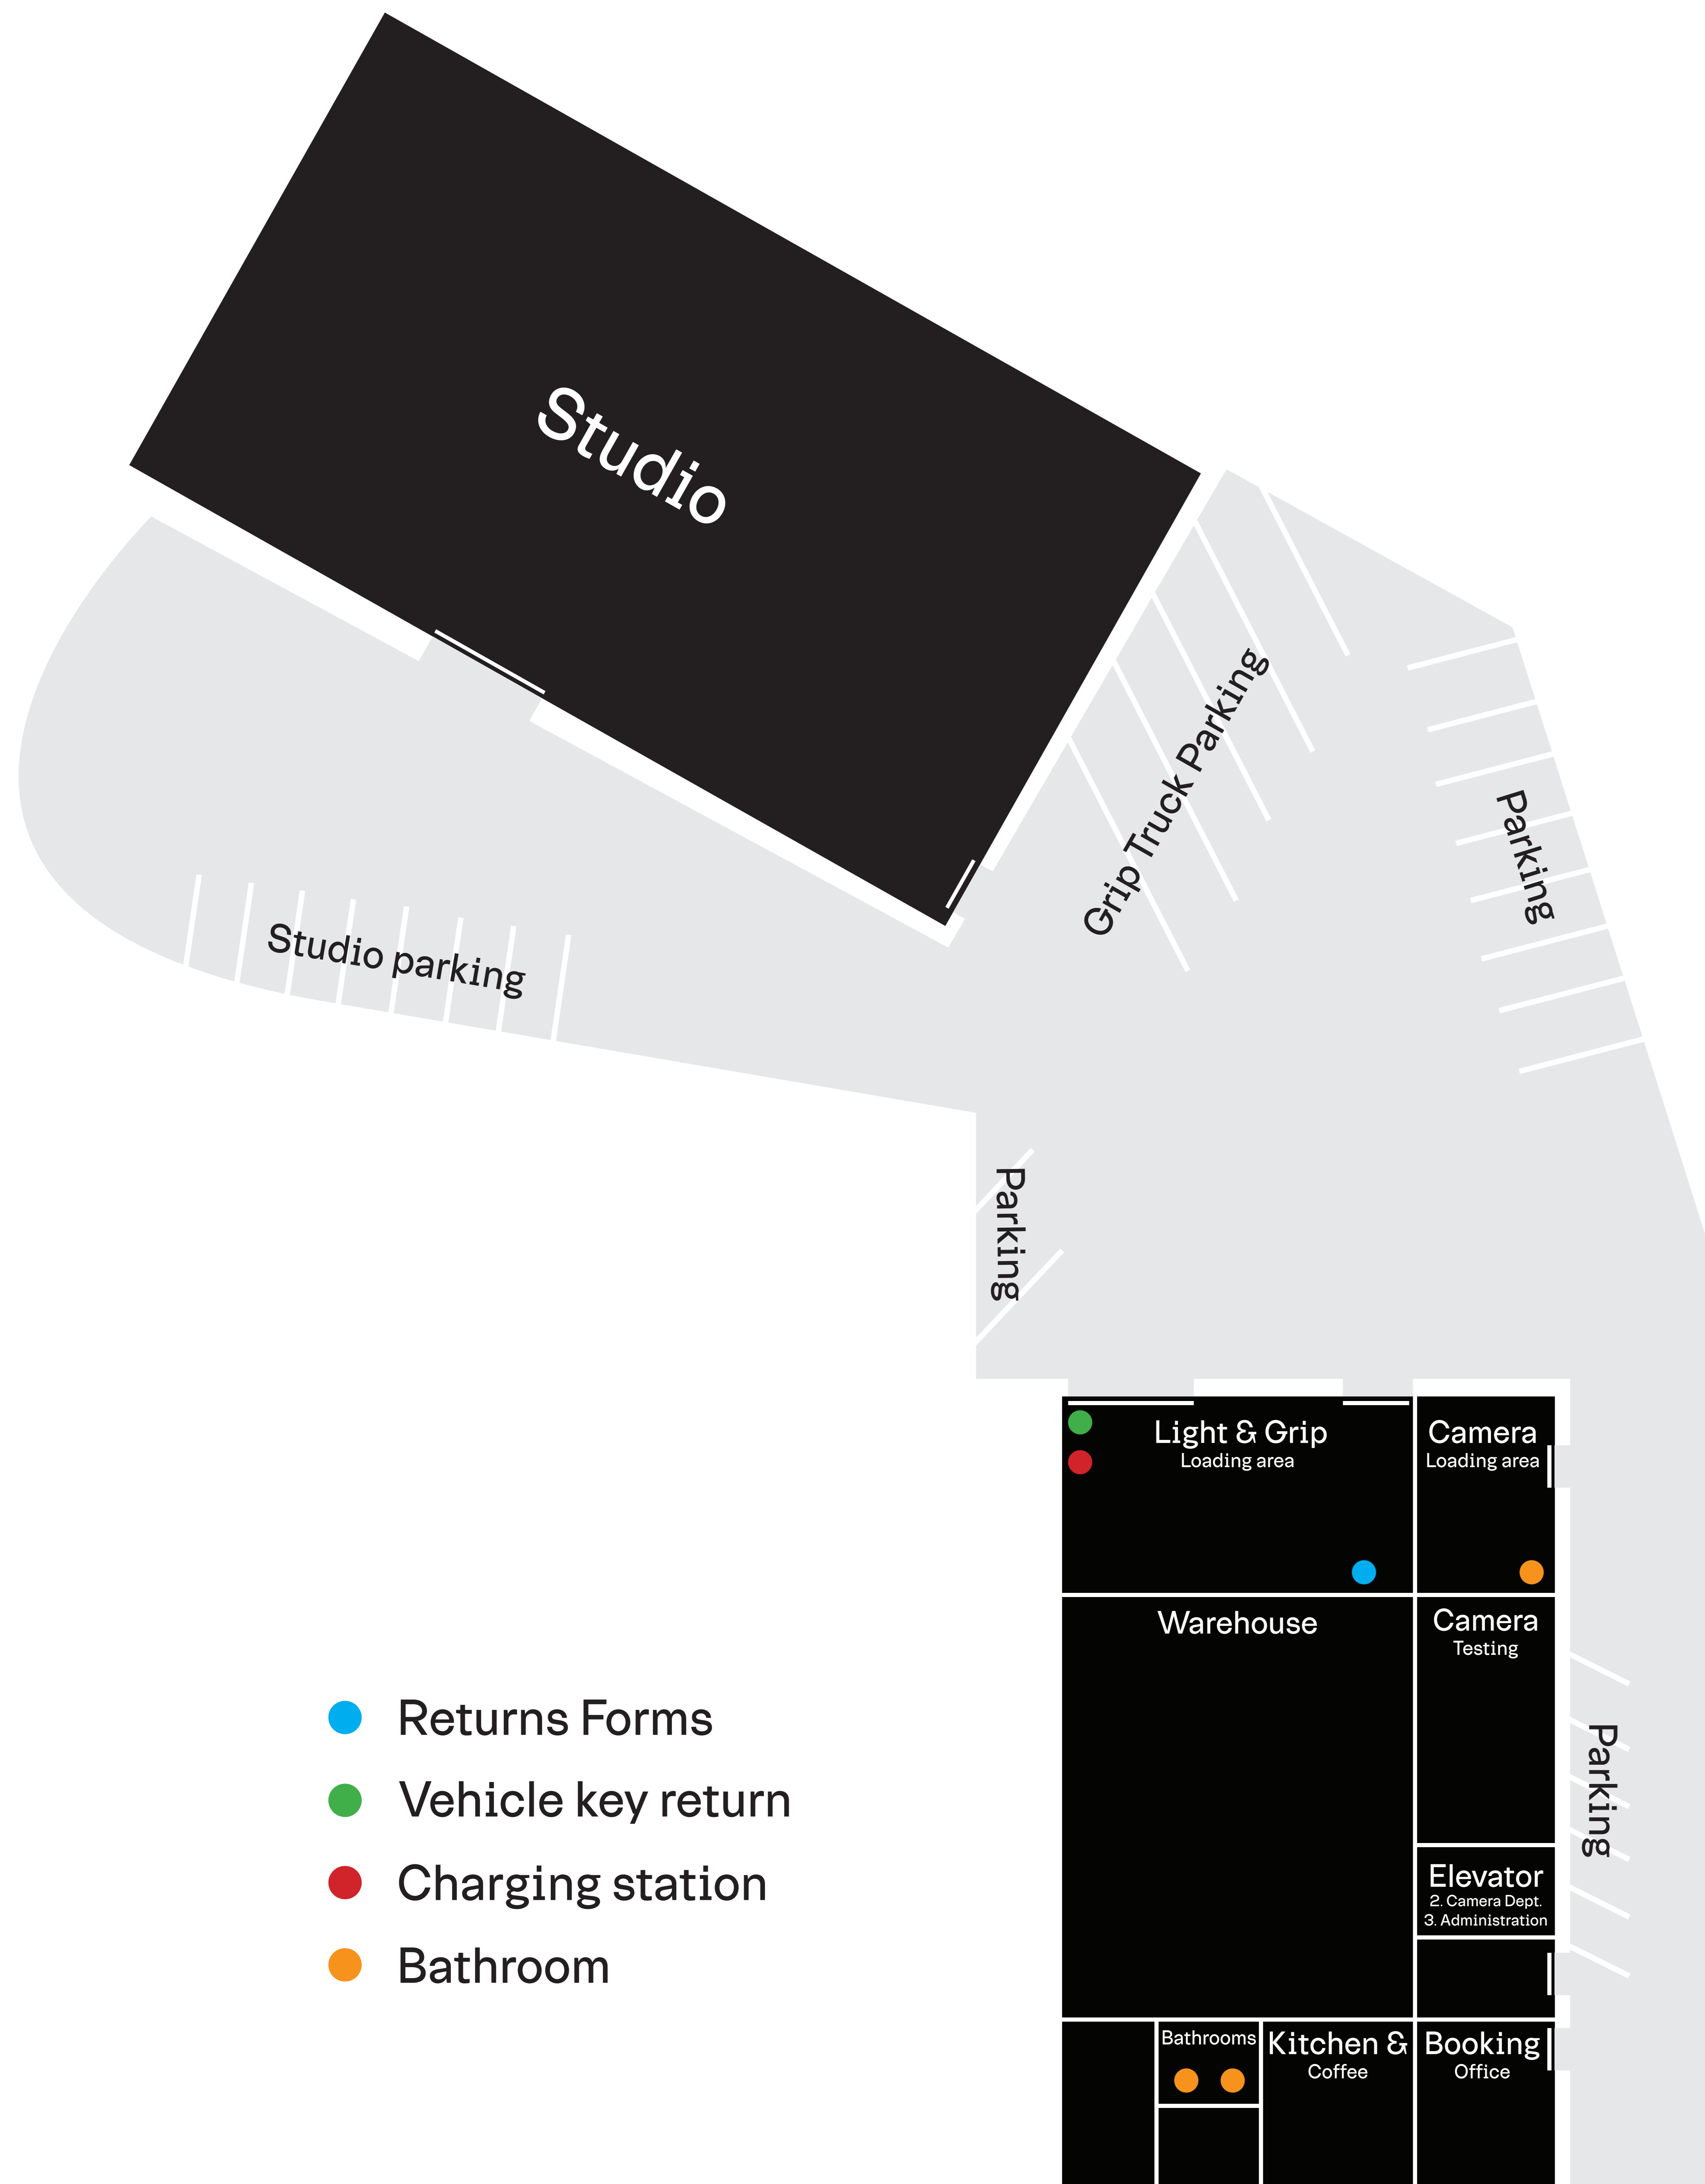

Charging equipment?

We have a **dedicated charging station** located in the shelf marked on the map in red.

If you leave equipment to charge, **please fill out a note** explaining if you are returning it or continuing to rent it! Notes for continuing equipment rent can be found on the charging station shelf.

Bathroom?

The customer bathroom available outside our opening hours is **located in the camera loading area**. Unfortunately, outside our opening hours the camera loading area **can only be accessed if you have designated access** to it, and it can be entered only from outside the warehouse.

Emergency?

We always have someone on duty to answer any and all emergencies you might have, the number is **+358 9 7594 7750**
